The

What's new:

in History 1. Which of these did NOT help English seafarers in the 1500s, and hindered later voyages to the New World? The English were also hindered by the following financial crisis at the end of the war: from 1485 to 1500, the government was forced to issue the last of the loans necessary to pay for the war. English seafarers could not, therefore, afford to buy supplies in the poorer Channel port of Harwich. Despite legislation passed in 1511 which granted bounties to ships sailing to the New World, this did not fully recover the cost of the currency inflation in the previous years. 2. Which of these was the modern equivalent of a windlass? An anchor, the crescent moon, a sewing machine, a dinosaur... the answer is ROTORED DRUMMERS! You see, in the Medieval Era, the primary way to move large pieces of ship, like the keels that propelled the ships, was by means of portable "ROTORED DRUMS". These were made of wooden (or even the more exotic wood-gating hoops) and had a single

metal end piece rather than the "nubbin" (or winch) end piece. When the windlass was used to pull the ships ashore, the sailors found it easier to control the ship if they could stop it through treading on the deck. In other words, it was like your modern shopping cart, with a bag at one end and a handle at the other. 3. Which of these was NOT the first (and, to this day, the most popular) name of the City of London? Any guesses? 4. In which city did the first Starbucks USA open? The first Starbucks coffeehouse opened in Seattle, Washington, on November 29, 1971. 5. The name Robin Hood: A Fictional Legend comes from where? The name Robin Hood comes from England's legend of the brave outlaw, most famous for stealing from the rich and giving to the poor. Robin Hood is most commonly associated in English-speaking countries with the story collected by which English chronicler? 6. In the late 1400s, which Bohemian rebel prince was most likely to be portrayed as the good guy in the eponymous opera by composer: Mozart Brahms Schubert Wolfgang Amadeus? 7. Was the idea for the MOUSE
