Indisputably one of the most popular and influential genre of games, the adventure has for long fascinated and challenged players. Creating an interactive story, players are given the opportunity to assume the role of a hero and take part in remarkable events in human history. A surprising amount of information is available concerning the characters and their exploits, but the myths that surround them have been and still are being created, so no single version of events has yet been verified. You can find the truth yourself, but what is important is the way you see it. Features Complete collection of 41 dinosaurs and 916 animations, which you can use for making excellent videos, films and clips. All content of this DLC will be available directly from the game, in the menu where you are making settings of the timeline. The package will be updated regularly. After buying the DLC you will get all updates for free. 3G / 4G / 5G Support: The phone application will work with mobile data. For operators with low speed network, this implies a download speed of up to 2 Mbit/s; for operators with a higher speed network, this is up to 10 Mbit/s. The minimum speed of the mobile network is 1Mbit/s. Music is an important part of this game. You can use the PlayStation®3 SoundXpander X3 Music System to play background music. The quality of the music depends on the bitrate chosen when the game is purchased. The default (44.1kHz PCM) has been chosen in the game. The following bitrates can be chosen: 44.1kHz PCM (Original): The game is compatible with PlayStation®3 AudioXpander X3 Music System. 44.1kHz PCM (Mantaray): The game is compatible with Mantaray Music Engine. 44.1kHz PCM (Bitstream): The game is compatible with the game's own Bitstream music format (requires a bitstream Decoder). 44.1kHz PCM (MP3): The game is compatible with iTunes music. 48kHz PCM (MP3): The game is compatible with iTunes music. All the music is embedded into the game, so it can be played in any way (such as the background music). You can also use the music stored on your PC, with the right software. To control music in the game, double-click on the X button. You
