Nobody should just go ahead and post a cracked complete database... if you don't... that they would be supported in future versions of RealFlight. In order to use Phoenix you will need a dongle. These are widely available in Ebay, search for 22 in 1 simulator and look for PhoenixRC compatible dongle with suitable adapter cables to your radio. Or make it wireless connecting a receiver to it, receiver can be powered with USB.

## Realflight G5 Dongle Emulator 34

it is possible to closely emulate the interlink dx or elite with an opentx transmitter in realflight. this allows using your existing opentx transmitter if realflight software only is purchased, since the ardupilot sitl models for use with realflight assume that an interlink dx is being used, setting up your opentx transmitter to exactly emulate it prevents having to change any transmitter settings for its use. 1) the dongle emulator will not work with your transmitter, it is onlyfor use with your interlink controller. 2) you should use a transmitter capable of supportingan interlink controller. 3) realflight 7.2.3 will be the last version to support the dongleemulator, it will be released on sep 14th 2013 i believe that you will be able to use the dongle emulator with any rfg3 version (including 5.3.0+), the dongle emulator only emulates the interlink controller, you willstill need to use an interlink controller with the dongle emulator, if you have an interlink controller, you can use it with a dongle emulator, ibelieve that you will be able to use the dongle emulator with any rfg3 version (including 5.3.0+). the dongle emulator only emulates the interlink controller, you willstill need to use an interlink controller with the dongle emulator, to use q3 with a dongle emulator, you will need to use an interlink controller, ibelieve that you will be able to use the dongle emulator with any rfg3 version (including 5.3.0+), the dongle emulator only emulates the interlink controller, you willstill need to use an interlink controller with the dongle emulator. 5ec8ef588b
